* The value of the Messages under Foreign Traffic represents the Indian share of charge.

† The decrease is owing to the transfer of the Government Meteorological Reports from the Free List to the Paying List; the fact of there being no diminution in value of messages is traceable to Mail Steamer Reports transmitted under *precedence* signal being charged under "Urgent" tariff.

* The bulk of these figures is what is denominated in the Indian Trade Accounts "Trans-frontier Trade by Sind-Pishin Railway." Of the exports the greater part consists of material transported for the construction of the railway and of stores supplied for the wants of British troops, which together may be roughly estimated at Rx. 2 millions for 1885-6 and 1886-7, and at Rx. 1½ million for 1887-8. Under imports, railway material returned is valued at Rx. 21,468, Rx. 21,553, and Rx. 60,160, for the same three years respectively.

† Upper Burma having become British territory in 1886, the trade with that country in 1886-7 and subsequently ceased to be "Frontier Trade;" it is, however, for the sake of comparison, entered in this statement in brackets, but is excluded from the total.

* The value of the Messages under Foreign Traffic represents the Indian share of charge.

† The decrease is owing to the transfer of the Government Meteorological Reports from the Free List to the Paying List; the fact of there being no dimi nution in value of messages is traceable to Mail Steamer Reports transmitted under *precedence* signal being charged under "Urgent" tariff.

* The value of the Messages under Foreign Traffic represents the Indian share of charge.

† The decrease is owing to the transfer of the Government Meteorological Reports from the Free List to the Paying List; the act of there being no diminution in value messages is traceable to Mail Steamer Reports transmitted under *precedence* signal being charged under "Urgent" tariff.
